Alison - 2021-2022

Bachelor's of Computer Science

University of Calabar - 2017-2023

Diploma in Web Programming

Computer Country, Calabar - 2015-2016

Work Experience

Software Engineer [Freelancer]

I work with a team of 4 Developers on an E-Commerce React Project as a front-end engineer.

Roicomsat, Calabar - Jan. 2023-Till Date

Software Engineer [Full-time]

I developed and deployed a system for Hostel Management for the University of Calabar while working for this firm. I played the role of a Full stack Developer in the project as I had to develop both front-end and back-end and also an admin dashboard.

Josebiz Global Resources, Calabar - Feb. 2021- Dec. 2022

Software Developer [Freelancer]

I lead my team to develop a system called Microskool, a students' support system initiative to aid students with GPA Calculator, Assignment Reminder, Lecture Schedule Reminder, etc. in all Nigerian Universities.

Firsta Technologies, Calabar - Aug. 2019- Jan. 2021
